COMMUNICATIONS SYSTEMS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - CONSOLIDATED FINANCIAL STATEMENTS

The balance sheet and statement of stockholders' equity as of June 30, 1995, the statements of income for the three and six month periods ended June 30, 1995 and 1994 and the statements of cash flows for the six month periods ended June 30, 1995 and 1994 have been prepared by the company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at June 30, 1995 and 1994 have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested these financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 1994 Annual Report to Shareholders. The results of operations for the periods ended June 30, 1995 and 1994 are not necessarily indicative of the operating results for the entire year.

NOTE 2 - INVENTORIES

Inventories summarized below are priced at the lower of cost (first-in,
first-out) or market:
<TABLE>

<s></s>	<c></c>	<c></c>
	1995	1994
	June 30	December 31

</TABLE>

NOTE 3 - INCOME TAXES

Income taxes are computed based upon the estimated effective rate applicable to operating results for the full fiscal year. For the periods ended June 30, 1995 and 1994 income taxes do not bear a normal relationship to income before income taxes, primarily because income from Puerto Rican operations are taxed at rates lower than the U.S. rate.

NOTE 4 - NET INCOME PER COMMON SHARE

Net income per share is based on the weighted average number of common and common equivalent shares outstanding during the periods. Common equivalent shares reflect the dilutive effect of outstanding stock options. Primary and fully diluted earnings per share are substantially the same.

7

COMMUNICATIONS SYSTEMS, INC. AND SUBSIDIARIES

Six Months Ended June 30, 1995 Compared to Six Months Ended June 30, 1994

Consolidated revenues increased \$9,757,000 or 26% from the 1994 period. Telephone station apparatus revenues increased \$7,059,000, or 26%. Apparatus sales to domestic (U.S. and Puerto Rico) customers increased \$5,523,000, or 27%. Sales to the Big 8 telephone companies (the Regional Bell Operating Companies and GTE) increased \$4,202,000 or 36% and accounted for 59% of domestic apparatus sales in the 1995 period. Sales increases to these customers were due to strong sales of the Company's Corroshield line of corrosion resistant products. Sales to electrical distributors and original equipment manufacturers decreased \$59,000 or 2%. Sales to retail customers increased \$754,000 or 30%.

Sales of telephone station apparatus to international customers increased \$1,536,000 or 21% over 1994. Sales by Austin Taylor, the Company's United Kingdom based subsidiary, increased \$1,076,000 or 17%, due to strong sales across the Company's product line. U.S. export sales increased \$390,000 or 55%. Sales in Canada increased \$70,000 or 16%.

Contract manufacturing revenues increased \$2,698,000, or 29%. Sales to Thermo-King, the segment's principal customer, increased \$136,000 over 1994, and accounted for 43% of the segment's sales. Sales of multifunction display units used by a major watercraft manufacturer increased \$1,201,000 or 114%, accounting for 19% of the segment's 1995 sales. Sales of printed circuit board assemblies to a Minnesota original equipment manufacturer added \$655,000 of new business in the period. Sales of the Company's proprietary line of electronic fishing products increased \$392,000, or 75%.

Gross margin as a percentage of apparatus sales was 27%, compared to 28% in the 1994 period. Gains in overhead efficiencies in U.S. plants due to increased production volume were offset by changes in product mix, particularly Corroshield products which the Company sells at lower margins than standard products. Margins earned on Austin Taylor products declined to 19% from 24% in the 1994 period due to increased raw material costs. Gross margin on contract manufacturing sales declined to 14% compared to 15% in 1994 due to inventory reserves established on certain slow-moving inventory items in the 1995 period.

Selling, general and administrative expenses decreased \$118,000\$ or 2% from the 1994 period. Increased customer delivery charges in the U.S. were offset by lower selling expenses and lower corporate expenses.

8

COMMUNICATIONS SYSTEMS, INC. AND SUBSIDIARIES

Managements' Discussion (continued)

Consolidated operating income increased \$1,899,000 or 49%. Net other income increased \$322,000 from the 1994 period due to gains on sales of marketable securities and increases in the value of the Company's marketable securities portfolio. The Company's effective income tax rate was 23% for the 1995 period compared to 19% in 1994. The Company's tax rate is lower than the full U.S. rate due to tax exemptions and benefits received by the Company's Puerto Rico operations. The Company's tax rate increased in 1995 due to limitations on the possessions tax credit the Company receives against U.S. income taxes on the earnings of its Puerto Rico subsidiary. Net income increased 49%.

Three Months Ended June 30, 1995 Compared to Three Months Ended June 30, 1994

Consolidated revenues increased \$3,565,000 or 19% from the 1994 period. Telephone station apparatus revenues increased \$2,374,000, or 17%. Apparatus sales to domestic (U.S. and Puerto Rico) customers increased \$2,008,000, or 20%. Sales to the Big 8 telephone companies (the Regional Bell Operating Companies and GTE) increased \$1,616,000 or 29% and accounted for 55% of domestic apparatus sales in the 1995 period. Sales increases to these customers were due to strong sales of the Company's Corroshield line of corrosion resistant products. Sales to electrical distributors and original equipment manufacturers decreased \$102,000 or 7%. Sales to retail customers increased \$389,000 or 27%.

Sales of telephone station apparatus to international customers increased \$366,000, or 9% over 1994. Sales by Austin Taylor, the Company's United Kingdom based subsidiary, decreased \$169,000 or 5%. U.S. export sales increased \$517,000 or 166% due to sales of Corroshield products to Latin America and Carribean island customers. Sales in Canada increased \$18,000 or 8%.

Contract manufacturing revenues increased \$1,191,000, or 29%. Sales to Thermo-King, the segment's principal customer, decreased \$690,000, or 28% from 1994, and accounted for 34% of the segment's sales. The sales decline was due to Thermo-King's decision to perform certain manufacturing functions in-house which were previously done by the Company. Sales of multifunction display units used by a major watercraft manufacturer increased \$865,000 or 399%, accounting for 21% of the segment's 1995 second quarter sales. Sales of printed circuit board assemblies to a Minnesota original equipment manufacturer added \$203,000 of new business in the period. Sales of the Company's proprietary line of electronic fishing products increased \$466,000.

Gross margin as a percentage of apparatus sales was 24, compared to 27% in the 1994 period. Gains in overhead efficiencies in U.S. plants due to increased production volume were offset by changes in product mix, particularly Corroshield products which the Company sells at lower margins than standard products. Margins earned on Austin Taylor products declined sharply due to higher raw material costs and lower production volumes. Gross margin on contract manufacturing sales was 16%, unchanged from the 1994 period.

Managements' Discussion (continued)

Selling, general and administrative expenses decreased \$539,000 from the 1994 period. Lower U.S. apparatus selling costs, lower corporate charges and expense adjustments at Austin Taylor were responsible for the decrease.

Consolidated operating income increased \$907,000 or 50%. Net other income increased \$153,000 from the 1994 period due to increased interest income and increases in the value of the Company's marketable securities portfolio. The Company's effective income tax rate was 21% for the 1995 period compared to 18% in 1994. The Company's tax rate is lower than the full U.S. rate due to tax exemptions and benefits received by the Company's Puerto Rico operations. The Company's tax rate increased in 1995 due to limitations on the possessions tax credit the Company receives against U.S. income taxes on the earnings of its Puerto Rico subsidiary. Net income increased 50%.

Liquidity and Capital Commitments

At June 30, 1995 the Company had approximately \$9,295,000 in cash compared to \$8,830,000 at December 31, 1994. Cash was utilized during the period to finance increases in accounts receivable, finance new plant and equipment and pay dividends and current liabilities. Working capital increased \$3,674,000 from year end to \$31,602,000. The Company's current ratio was 4.1 to 1, compared to 3.3 to 1 at December 31, 1994.

Order input for U.S. apparatus products was \$27,573,000 in the first half of 1995, up 34% from the 1994 period. Shipments to customers during the first half of 1995 were an all-time record. Sales order backlog was \$5,866,000 at June 30, 1995, up substantially from year end but slightly lower than at March 31. The Company has responded to the increased demand by increasing production shifts, working plants overtime, and increasing use of air shipments to reduce production lead times and customer delivery times. The Company is also expanding its use of outside contract manufacturers to increase its manufacturing capacity.

The Company's balance sheet remains strong, with stockholders' equity of \$50,293,000 and long-term debt of only \$68,000. The Company has available a \$2,000,000 bank line of credit. The Company's cash flows from operations exceeded \$7,000,000 in 1994, and totaled \$3,025,000 in the first half of 1995. Management believes, based on the Company's current financial position and projected future expenditures, that sufficient funds are available to meet the Company's anticipated needs.

10

COMMUNICATIONS SYSTEMS, INC. AND SUBSIDIARIES

PART II. OTHER INFORMATION

Items 1-3. Not applicable

Item 4. Submission of matters to Vote of Securityholders
The Annual Meeting of the Shareholders of the Registrant was held on May 15,
1995 in Minneapolis, MN. The total number of shares outstanding and entitled to
vote at the meeting was 9,024,165 of which 8,603,821 were present either in
person or by proxy. Shareholders reelected Board member Curtis A. Sampson (in
favor 8,526,475, abstaining 77,346) and elected new Board member Joseph W.
Parris (in favor 8,523,777, abstaining 80,044) to three year terms expiring at
the 1998 Annual Meeting of Shareholders. Board member James O. Ericson, a
director since 1970, did not stand for reelection at the meeting. Directors
continuing in office are Edward E. Strickland, Edwin C. Freeman and John C.
Ortman (whose terms expire at the 1996 Annual Meeting of Shareholders) and C.A.
Anderson, Paul J. Anderson and Wayne E.Sampson (whose terms expire at the 1997
Annual Meeting of Shareholders).

Additionally, shareholders approved an amendment to the Company's Articles of Incorporation, increasing the total number of authorized shares of common stock, par value \$.05 per share, by 15,000,000 shares to a total of 30,000,000 shares (in favor 7,976,232, opposed 530,763, abstaining 96,826). Shareholders also approved an amendment to the Company's 1992 Stock Plan to increase the total number of shares of common stock available for issuance under such plan by 500,000 shares to 900,000 shares (in favor 7,160,937, against 332,821, abstaining 1,110,063). Shareholders also approved an amendment to the Company's Employee Stock Purchase Plan, increasing the total number of common shares available for issuance under the plan from 100,000 shares to 200,000 shares (in favor 7,400,432, against 150,607, abstaining 1,052,782).

Items 5-6. Not applicable

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereto duly authorized.

By Paul N. Hanson

Paul N. Hanson Vice President and Chief Financial Officer

Date: August 11, 1995
